

### AIR PERMITS MONITORING GRANTS BRANCH

- Terrie and Cindy for continuing to move the DERA projects along.
- Aunjanee for tracking down the glitches in IGMS that prevented David from seeing and signing off on our grant work
- Donnett for turning around the payment for mobile phones within a day and for tracking the \$640,000 de-obligated funds
- Ruben and Nia to keep the information on ethylene oxide updated
- Mark S and Clarence for discussing ambient air monitoring locations with the Superfund staff
- David and Suzy for completing review on Quapaw air network as part of the innovative 'desk-top' TSA
- Ellen, Mike, Josh, and Mark S for continuing to analyze and review the six annual network plans
- Suzy, Cindy, Mike, Josh, and Mark S for getting the City of Albuquerque data certification approval out the door
- Ruben for all his assistance on Denka work
- Mariama for acting as Section Chief for Fran on Friday
- Cathy and Cindy for preparing a cheat sheet of DERA-eligible engine types and environmental benefits.
- Mark B for taking notes during the national QA call
- Ashley for getting the TxDOT DERA grant to David for signature
- Brad for the Texas GulfLink briefings for management and the RA; Mark S for the State of Ozone briefing for the RA; Aimee for BWTX briefing
- Aimee Wilson, Adina Wiley, Dinesh Senghani, and Brad Toups for acting for Air Permits while Cyndi has been on vacation

### STATE PLANNING IMPLEMENTATION BRANCH

- Bob for completing the initial SO2 designations and TSDs
- Janna and Bob for their evaluation of Denka monitor data
- Erik for providing guidance on 110(l) comments on Arkansas Regional Haze
- Karolina for briefing on OIG Report recommendations for MSW landfills
- Jim for continued work on Arkansas Regional Haze
- Dayana for coordinating with OFR to address last minute comments and getting the Texas Regional Haze notice published
- George for his work in reviewing the change in scope for the planned controlled venting of Tritium contaminated waste containers at LANL. This project is part of LANL's plan to manage tritium waste. The approval letter was signed on Monday
- Carl for providing an update on the Final Agency Review of a Proposal for Interstate Transport of Air Pollution and the 2008 Ozone Air Quality Standard
- Carrie for continuing to support ARD by compiling the daily updates for COVID 19
- Randy for his quick review of the final Environment Assessment for the Paducah Gaseous Diffusion Plant

## Air and Radiation Division
